Cell Signal Strength Map

Canada,Québec,
City of Québec

N

dBm signal

- Poor signal (-113 to -100)
- Sufficient signal (-99 to -90)
- Good signal (-89 to -80)
- Strong signal(-79 to ∞)

#30DayMapChallenge 2026

Data were collected and processed by Antoine Lessard. Cell signal quality measurements were obtained using the mobile application Network Cell Info Lite.

Cartographic design, data processing, and map production were also completed by Antoine Lessard.

Map Scale: 1:4,000

200 Meters
